Carbondalean Day

Dear Editor:

You have asked how many people would like a Former Carbondalean Day during Pioneer Days week and I say "Yes," please have one.

Also, keep the paper with all the news coming like you do. The reading now is fine and "Keeping in Touch" is great. I cut out all the pictures and addresses of all my dear friends who left dear Carbondale. We read the paper from corner to corner and we will try and look you up when we come home for Pioneer Days which we are waiting to read about so I can write to my brother Carmine and his wife to let them know just when we expect to visit Carbondale.

Your paper is a gift from my husband Dominick's daughter, Mary Warholic.

We own our house in Dover, but we call Carbondale, Pa. our home and are hoping one day to move back. We love Carbondale, but with all the mines shut down we had to survive and moved. We are hoping to contact you when we come home.

Thank you,
Mary L. Tolerico
